Master Doctor Kit

Inside the Master Doctor Kit case you will find two interchangeable bases marked A & B plus six different heads.

Part **C** & **D** is to help you improve your **shot approach**.

Part **E** & **F** is to help you achieve **level cueing**.

Part **G** is to help develop a good **Cue Action**.

Part **H** is to help **cueing from the cushion**.

Introduction

Thank you for purchasing the Master Doctor Kit. This kit has been designed by Davide Coltro from the Ambrosian Snooker Academy in Milan and World Snooker Coach PJ Nolan from the 147 academy.

The Master Doctor Kit is a simple and very effective tool to improve the fundamental techniques of Snooker and Billiard sports.

The shockproof case contains eight parts, marked by the letters A to H, which you can assemble to work on specific aspects of the approach and an accurate cue action.

The material is top of the range plexiglas to ensure great durability and strength. No need to wait to go to the club, you can improve your basic techniques with the Master Doctor Kit on your kitchen table at home.

A few minutes per day will improve your accuracy and your cue action by developing a good pre shot routine which is a vital part of your overall technique as you need to approach to the table by coming in on the line of aim.

The Master Doctor Kit will help you develop good fundamentals in your overall technique.

David Coltro PJ Nolan

Place the Master Doctor Kit base on the table with part G and attempt to deliver the cue through the device to ensure a straight and consistent cue action.

Place the Master Doctor Kit base with parts C & D along the Baulk Line and attempt to come in to address the cue ball without touching the device on the table.

The champions

Place the Master Doctor Kit base with parts E & F on the table and attempt to deliver the cue through the device to ensure a level address position and delivery position.

BEFORE

AFTER

Place the Master Doctor Kit base against the cushion with part H and attempt to deliver the cue through the device to ensure a smooth delivery action.

I wish you good luck using the Master Doctor Kit and I use it everyday in my 147academy and I see how much it can help players develop good fundamentals.
